5: Strongly support 0: Strongly oppose

1. What are your biggest concerns about activating the Joe Mamo Lot? (Pick your top three) (Multiple choice)

19/19 (100%) answered · 0 skipped

What would make you more likely to support activation of the lot?

Actual noise regulation standards, actual times of operations, parking plans, community buy in. To be honest, the resident deserve nothing less than true permanent development.

Townhomes - green space

Defined times/proposals/community benefits

Community input

I already support it.

Zoned parking

a real, concrete plan, rather than just hand waving about an ill-defined "community center"

clear plan for drop off/pickup logistics for people visiting

I think the bigger question is on the long term development — we want to make sure that is still on track.

inclusion of family-friendly activities (fun stuff for kids), a library book truck in addition to food trucks

Something that met the needs/ wants of the community. Not things that would favor people traveling to the area from other areas of dc/ out of town

Having a space that would not impact parking, nearby residents. It doesn't seem likely that a bar would be open 9am-9pm No BullPen
permanent solution - housing and green space.

Mixed use, market rate development should be prioritized over temporary activation.

Turning it into a playground and exercise - parcours? - type site

If there were fewer community meetings where the same half dozen NIMBYs show up to complain

A proper business plan constructed with ample input from the residents that live in the immediate vicinity.

If the lot is activated, what type of activation would you most like to see?

Permanent development is the only thing that will help the community. A loud open air bar does not help

Housing

N/A

Community spot

Whatever use is actually viable and will bring economic activity and vibrancy to the area.

permanent solution

nothing- it needs to be developed or eminent domained.

A multipurpose space that brings people to the area, spurs business investment and makes it vibrant.

Food trucks with beer & wne only (no spirits)

Quiet, limited hours, family friendly, alcohol in limited situations (not by right)

Community Space, no noise, no food

Garden. Something Green.

Mixed-use, market rate development.

park space - some sort of games

The taller and denser the better but anything would be great

Housing, retail, grocery, literally anything other than a large open bar or a weed spot.

Arts and outdoor family oriented activities (classes on community gardens

Please share your address and/or cross streets to indicate the proximity of your residence to the Joe Mamo Lot.

13 Quincy Pl NW
